

Interview with a Rock

- Rocks can be classified by their properties
- Observe your rock with a magnifying glass
- Notice the color(s), shape, texture, luster, size, streak, and hardness of it.

Illustrate your rock here.

Ask your rock some questions. (He/she may be shy... Observe your rock to answer the questions.)

1. What color(s) are you?

2. What Shape are you? Describe your bumps and edges.

3. What is your height and weight? (How big and how heavy?)
